Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 21-35 are in the application. Claims 1-20 have been cancelled.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 21, 22, 24-27, and 32-35 rejected under 35 U.S.C. 102(b) as being anticipated by McKenney (4,378,614).

McKenney discloses a harness arrangement suitable for use on watercraft comprising a basic element coupled to a harness 55,59 and a hook 6, suitable for hooking a cable, coupled to the basic element; wherein the basic element includes a first piece 5 connected to the harness and a second piece 8 that can be disconnected from the first piece and wherein the first piece is coupled to the second piece by a removable coupling member 9 having a manual grip for removal of the coupling member. The first piece and second piece constitute plates. The first and second pieces have transverse holes (figure 2).

The coupling member includes a pin 91 and a handle 9.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 28 is rejected under 35 U.S.C. 103(a) as being unpatentable over McKenney (4,378,614).

In McKenney the coupling member is located on the lower part of the first and second piece. To locate the coupling member on the upper part would have been an obvious matter of design choice to one having ordinary skill in the art.

Allowable Subject Matter

6. Claims 23, 30, and 31 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
7. Claim 29 is allowed.

Response to Arguments

8. Applicant's arguments with respect to claims 21, 22, 24, 25, 28 and 32-34 have been considered but are moot in view of the new ground(s) of rejection.
9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jesús D. Sotelo whose telephone number is 571-272-6686. The examiner can normally be reached on Mon. – Fri. 5:30 AM – 2:00 PM.
